

## Round enamelled winding wire of aluminium, thermal class 200°C

### STANDARDS

IEC 60317-25 (round)

IEC 60317-73 (rectangular)

### DIMENSIONAL RANGE (mm)

Round GR2 0.315 - 6.00

Rectangular GR2 1 - 100mm<sup>2</sup>

### APPLICATION

Lightweight structures, electric motors, oil cooled transformers, insulated dry transformers, welding transformers.

### FEATURES

Heat shock:  $\geq 220^{\circ}\text{C}$ . High heat resistance, very good resistance to transformer oils, typical solvents and freon, suitable for light constructions.
