

TECHNICAL INFORMATION MESAMOLL

Product used for degreasing and cleaning of resin mixing and dispensing machines and for cleaning of production lines dispensing plastics (injection molding machines) or work places stained with plastics. It is recommended to try on a small section of the line production before use.

PROPERTIES

Density at 20°C (grs /cm3)	1.03 - 1.07
Viscosity at 20°C (cps)	90 - 120
Freezing point (°C) ...	10
Flammability temperature (°C)	200 - 230

PRESENTATION AND STORAGE

In metallic drums of 2, 5, 25 and 200 liters
Store closed containers in a dry place and far off sun light or a heat source.
